

PROPANE

FOR A COST EFFECTIVE, SAFE ALTERNATIVE FUEL

TURN TO THE NEW ROUSH F-150 LPI

ROUSH introduces the first Dedicated Propane - Powered F-150 pickup truck using an advanced liquid propane injection (LPI) system. The ROUSH F-150 LPI is designed and manufactured to operate solely on propane while providing the same horsepower, torque, and drivability of an F-150 equipped with a gasoline powered 5.4 liter V-8 Triton.

The LPI can be ordered in 4x2 or 4x4 . Regular Cab, Super Cab or Super Crew Cab styles, with XL or XLT Trim packages and your choice of bed lengths.
