Reduce your risk & expand your protection.

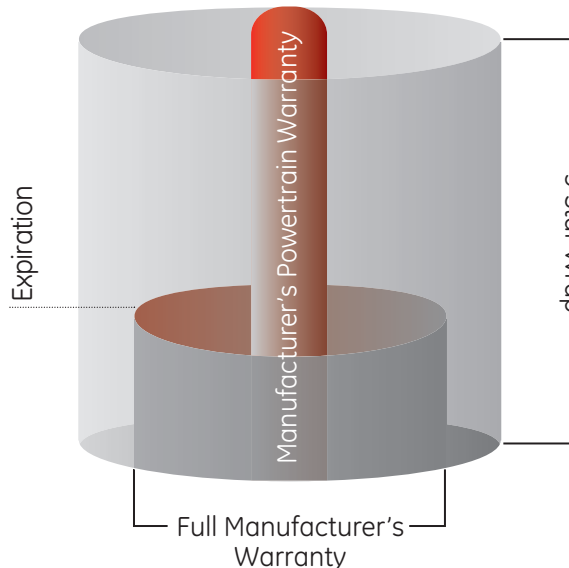

The manufacturer's warranty, alone, may not give you all the coverage or benefits you need.

For instance, the initial months of the manufacturer's warranty may not cover towing, trip interruption, or car rental. If something goes wrong and you have to use the manufacturer's warranty, you're likely to need these additional benefits too.

In addition, while your car begins to age, the manufacturer's warranty coverage begins to diminish.

The Warranty Services 5 Star Wrap vehicle service contract from GE Money wraps around the manufacturer's warranty to provide you the extensive coverage you need.
