

"AMERICAN OWNED NOT OWNED BY AMERICA"

NORTHSIDE FORD CHALLENGES SAN ANTONIO TO "DRIVE THE FORD DIFFERENCE"

By Chad Worrel, San Antonio, TX

In today's economy there are few shining lights in corporate America. We turn on our evening news to hear of the latest industry or company that has collapsed and the scandal behind it.

At Northside Ford we are proud! Proud to represent an American Company that is succeeding in a tough economic environment, Proud that Ford did not take our Tax dollars to remain in business, Proud that we sell a product whose quality is second to none.

While there have been high points and low points over the years the Ford name has endured. From the founder Henry

Ford to William Clay Ford Jr. today there has been a person behind the name, someone who cares what Ford represents and what impact the company has on their employees, our society and our environment.

With products that not only offer class leading quality, but industry leading technology such as Soy based seat foam, gas-electric hybrids, and soon battery electric vehicles Ford continues to lead the industry.

As we bring 2009 to a close with our "Year End Event", we invite you to "Drive the Ford Difference" at Northside Ford. If you haven't looked at Ford in a while you will be

impressed. From our top selling F-150 with class leading towing capacity to the just announced Motor Trend Car of the Year the 2010 Fusion we have the right vehicle for your needs. An added bonus, during our "Year-End Event" we have the largest selection of new Ford cars and trucks in San Antonio with year-end clearance prices clearly marked.

At Northside Ford we are excited about what the future will bring, with the Ford tradition of over 100 years of innovation, quality and customer service.

Stop by Northside Ford today and "Drive the Ford Difference".
